PROJECTS

Signlingo(Team Lead)— A web app designed to help people learn American Sign Language(ASL).

PostGres | React | Node | Express

- Planned objectives for each release canvas
- Provided technical advice and support to team members

Dev Desk(Backend Developer)— *A web app that allows students to create tickets for tech questions.*

PostGres | React | Node | Express

- Collaborated remotely with a team of 5 web developers to build a web application in a week
- Created middleware and endpoints for the project's backend
- Designed the database schema

Sauti Design Studio — *A web app that allows users to create an SMS based application with no code.*

PostGres | React | Node | Express

- Collaborated remotely with a team of 3 developers and a UX designer to improve an application over two months
- UI redesign and bug fixes
- Created automated email response endpoints

EXPERIENCE

Lambda School, Remote — *Team Lead*

April 2020 - June 2020

- Worked with a team of 8 data scientists and web developers
- Improved backend manageability by drastically decreasing the number of tables present in the database
- Sourced thousands of photos for a data science model that recognized ASL alphabet signs

GoPage, Las Vegas, Nevada — *Brand Ambassador*

May 2017 - September 2017

- Developed strong team and interpersonal skill in a faced paced start-up environment
- Assisted Customers in the installation of the GOPage customer loyalty system
- Provided technical support
